

****Patient Information****

Patient ID: 006-100534 Patient Unit Stay ID: 898373 Age: 79 Gender: Male Ethnicity: Caucasian Hospital Admission Time: 2015-XX-XX 21:19:00 Hospital Discharge Time: 2015-XX-XX 16:16:00 Unit Admission Time: 2015-XX-XX 12:23:00 Unit Discharge Time: 2015-XX-XX 18:06:00 Admission Weight: 92.2 kg Admission Height: 172.7 cm Unit Type: CSICU Unit Admit Source: ICU Unit Discharge Location: Acute Care/Floor Hospital Discharge Status: Alive Unit Discharge Status: Alive

****History****

Insufficient data provided to generate a detailed patient history. The available data only includes admission and discharge times, weights, and locations, along with some basic demographics. No information on presenting complaints, past medical history, family history, social history, or medication history is included. Further details are needed to provide a complete history section. The admission diagnosis (apacheadmissiondx) is also missing.

****Diagnoses****

NULL. No diagnoses are explicitly listed in the provided data.

****Treatments****

NULL. No treatment information is provided in the given dataset. This section would typically include details of medications administered, procedures performed, and other therapeutic interventions.

****Vital Trends****

NULL. No vital sign data (heart rate, blood pressure, respiratory rate, temperature, oxygen saturation) is included in the dataset to generate this section.

****Lab Trends****

The following lab results are available:

* **Potassium:** 4.6 mmol/L (measured at 372 minutes post unit admission) * **PT:** 18.2 sec (measured at 1377 minutes post unit admission) * **PT - INR:** 1.5 ratio (measured at 1377 minutes post unit admission) * **PTT:** 39 sec (measured at 1377 minutes post unit admission)

Note that only a limited number of lab tests are reported, and there is no information about the timing of these tests relative to each other or to the patient's clinical course. More comprehensive lab data, including multiple measurements over time, would be required to identify trends and patterns.

****Microbiology Tests****

NULL. No microbiology test results are present in the provided data.

****Physical Examination Results****

NULL. No physical examination findings are included in the provided data. This section would normally include a detailed description of the patient's physical condition upon admission and during the ICU stay.
