

****Patient Information****

Patient ID: 006-100497 Patient Unit Stay ID: 892620 Patient Health System Stay ID: 666149 Gender: Male Age: 28 Ethnicity: Caucasian Hospital ID: 146 Ward ID: 374 Admission Diagnosis: NULL Admission Height (cm): 172 Hospital Admission Time: 23:48:00 Hospital Admission Offset (minutes): -1352 Hospital Admission Source: Emergency Department Hospital Discharge Year: 2014 Hospital Discharge Time: 22:40:00 Hospital Discharge Offset (minutes): 20 Hospital Discharge Location: Home Hospital Discharge Status: Alive Unit Type: Med-Surg ICU Unit Admission Time: 22:20:00 Unit Admission Source: ICU to SDU Unit Visit Number: 2 Unit Stay Type: stepdown/other Admission Weight (kg): NULL Discharge Weight (kg): NULL Unit Discharge Time: 22:40:00 Unit Discharge Offset (minutes): 20 Unit Discharge Location: Home Unit Discharge Status: Alive

****History****

Insufficient data provided to generate a detailed patient history. The provided JSON only includes administrative and demographic data, not the patient's medical history prior to or during the ICU stay. Further information is needed, such as a detailed description of presenting symptoms, past medical conditions, family history, and social history. The admission diagnosis is also missing which would normally be a key component of this section.

****Diagnoses****

NULL. No diagnoses are listed in the provided data.

****Treatments****

NULL. No treatment information is available in the provided data. This section would typically include details of medications administered, surgical procedures performed, respiratory support provided (e.g., mechanical ventilation), and other therapeutic interventions.

****Vital Trends****

NULL. No vital sign data (heart rate, blood pressure, respiratory rate, temperature, oxygen saturation) is included in the provided dataset. This section would typically include a graphical representation of vital sign trends over time.

****Lab Trends****

NULL. No laboratory test results are provided. This section would normally present trends in key blood tests (e.g., complete blood count, electrolytes, renal function tests, liver function tests) over the course of the ICU stay.

****Microbiology Tests****

NULL. No microbiology test results are provided. This section would include results of blood cultures, urine cultures, and other microbiology tests performed to identify infectious agents.

****Physical Examination Results****

NULL. The provided data does not contain any information about physical examination findings. This section would typically describe the patient's physical condition upon admission and at various points during the ICU stay, including findings on examination of the heart, lungs, abdomen, and neurological system.
