Vital Trends:
NULL (Insufficient data provided)
Lab Trends:
The provided data includes lab results for bedside glucose and magnesium, and phosphate. Bedside glucose levels were measured at 97 mg/dL at 189 minutes and 94 mg/dL at 394 minutes post unit admission. Magnesium was measured at 2.3 mg/dL at 182 minutes post unit admission and phosphate was measured at 2.3 mg/dL at 182 minutes post unit admission. The time intervals between measurements are not consistent. More frequent and comprehensive lab data is needed to establish meaningful trends.
